Three Feet from Gold

by

Dr. Greg Reid and Sharron L. Lechtor

Three Feet from Gold by Dr. Greg S. Reid and Sharon L. Lechter is a motivational book that draws inspiration from Napoleon Hill's classic, *Think and Grow Rich*. The book is structured as a business allegory, following a young entrepreneur who is struggling and on the brink of giving up. Here are some key concepts and themes:

1. **Perseverance**: The central message is to never give up, even when success seems just out

of reach. The title itself is a metaphor for the idea that many people give up just before they achieve their goals.

2. **Personal Success Equation**: The book introduces a formula for success that combines passion, talent, the right associations, and faith. This equation is meant to guide readers in their personal and professional lives.

3. **Overcoming Obstacles**: It emphasizes the importance of viewing obstacles as opportunities for growth and learning. The story encourages readers to see challenges as stepping stones rather than roadblocks.

4. **Mentorship and Networking**: The protagonist's journey highlights the value of seeking guidance from mentors and building a strong network of supportive individuals.

5. **Self-Belief**: A recurring theme is the power of believing in oneself and one's abilities. The book encourages readers to have faith in their potential and to stay committed to their vision.

6. **Action-Oriented Mindset**: The narrative stresses the importance of taking consistent and deliberate actions towards one's goals. It suggests

that success is not just about having a dream but also about actively working towards it.

The underlying principle of the book is that success is often closer than it appears, and persistence, combined with the right mindset and support, can lead to remarkable achievements.
